

ELECTRIC DRYING SYSTEM

MODELS:

EDO-3600/20-60

THIS ELECTRIC DRYING SYSTEM SPEEDS UP THE DRYING TIME OF SPRAY FINISHES. FINISHED PARTS TRAVEL THE LENGTH OF THE MACHINE ON A CONVEYOR WHILE A CONTINUOUS STREAM OF WARM AIR PASSES OVER THEM TO ACCELERATE CURING.

THESE MACHINES CAN BE BUILT TO VARIOUS LENGTHS TO MEET CUSTOMER AND COATING SUPPLIER SPECIFICATIONS WITH LONGER MACHINES USED IN APPLICATIONS THAT REQUIRE LONGER DRYING TIME.

EDO-3600 SPECIFICATIONS

Working Width	36"
Working Length	Infinite
Feed Speed	Up to 25 FPM
Heat Type	Electric
BTU	51,400
Extraction Fan	2 HP
Controls	Manual/Pushbutton

MADE IN USA
